

The Pasteur - Paris University International Doctoral Program

An international PhD program in Life Sciences and Biomedicine

Call for 2017

An exceptional PhD program* in the exciting, dynamic and interactive research environment of the Institut Pasteur in collaboration with Parisian universities. The PhD program is for students holding a Master's degree (or equivalent) in science, medicine or related fields from a non-French university.

- › Improving public health and welfare through scientific discovery
- › Quest for knowledge beyond the frontiers of biological sciences
- › Satisfying scientific curiosity in a dynamic research environment
- › State-of-the-art technology platforms
- › A three years stipend covering living expenses and social benefits
- › Assistance with housing and visas
- › Tailored courses and training to high proficiency
- › Close scientific supervision
- › Interactive environment for collaborations
- › Dedicated student club for science and social activities

*This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement N°665807.

For more information and submission of applications : www.pasteur.fr/en/doctoralpositions

- First step : find a host laboratory. Available labs and their projects will be posted on the web site and may be contacted from September 12 to November 2.
- Second step : submit complete application in collaboration with host lab by November 14.
- Third step : short-listed candidates will be invited for an interview at the Institut Pasteur in February, 2017, with decisions shortly thereafter.
