MOBILITY IS A LIFESTYLE.

"All of us were there and we were all dedicating ourselves to spreading the passion we feel for the idea of living a life which has colorful pieces scattered all over the world. We knew borders were illusionary. We were all professional travelers. We owned the world and we knew it. I learned how to recognize opportunities. I learned that my voice mattered. I got the courage to do things everyone said were impossible."

Aleksandra – Erasmus in Austria

"What will I miss while I'm away! And you know what? Time passed so fast that I honestly came back to almost identical situation I have left behind before practice."

Kristina – Erasmus Internship in Croatia

"Indeed I improved many professional skills and gained a lot of new friends and useful contacts, for sure it was the biggest challenge for me after my first erasmus and now every new internship or job abroad is just a normal routine for me, I think that is the best thing that came out of this experience."

Marko – Erasmus Internship in Croatia

"It has opened my mind and changed my view on our western world. I'm now more sensitized to issues of global inequality."

Nina – Volunteering in an International Development Organisation in India
